Level 1 & 2 combined

1,562

pupils trained | **9,372 hours**

Level 3

54

pupils trained | **108 hours**

Local delivery. Lasting impact.

Over the past 17 years, Aspire Active Education has delivered Bikeability to **22,000+ children** at over **70 schools** across North Birmingham.

More than just cycling

Bikeability supports:

- ✓ Safer journeys to school
- ✓ Improved physical health
- ✓ Greater confidence and well-being
- ✓ Independent, active travel habits

National evidence shows cycle training:

- ✓ Improves wellbeing
- ✓ Increases the likelihood of active travel
- ✓ Builds lifelong healthy habits

“School feedback

“For students who had never learnt to ride a bike before, this has truly been life-changing.”

Michael Dinnery, Springhill High School

“The team were friendly and professional throughout, giving our students the confidence they needed to succeed.”

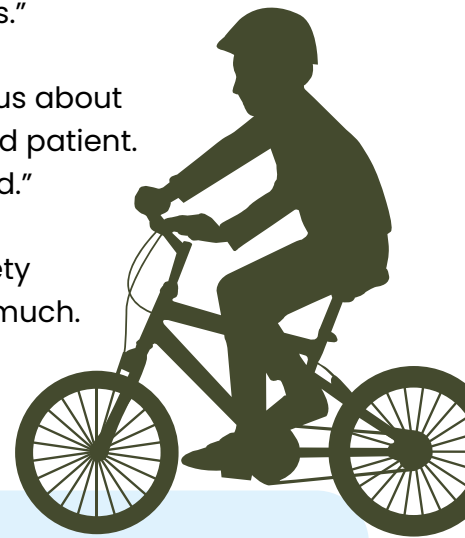

Amber Weir, Springhill High School

Parent feedback

“In seven years, I haven’t managed to get my son on a bike. In just a few hours, Joolz achieved what we hadn’t managed in seven years.”

“Amar is autistic and was so anxious about riding. Joolz was incredibly kind and patient. You could see how much she cared.”

“My daughter came with real anxiety about riding and has come on so much. We’ve been out riding since – it’s lovely to see.” ”

Looking ahead – Growing our impact

We’re continuing to:

- ✓ Strengthen delivery in Erdington and Sutton Coldfield
- ✓ Support the development of new instructors
- ✓ Contribute to a sustainable, city-wide Bikeability offer

Because every child deserves the opportunity to ride with confidence.

Bring Bikeability to your school
